 Food: Croissants  
Frog legs  
Baguettes

 Famous Landmark: 

So you want your students to research a country and write a report...

©TerrificTeachingIdeas

...but you need templates that are easy and engaging for students to use when organizing their information.

Luckily for you, thousands of teachers have used and loved these best-selling activities!

# What other teachers have to say -

"My students loved researching a country and presenting what they learned. This was a great way to keep their information organized."

— Mary D.

"Perfect tool for our culminating research project for our countries and continents unit. Gave kids all the structure they needed!"

— Rebecca T.

"My students liked how this was organized for them. They found it easy to use and understand."

— Lori B.

# What other teachers have to say -

"Great resource for students who need a template and more scaffolding."

— Patricia C.

"I used this as a resource for my students who were struggling academically. It was great for them, easy to use, and helped them understand the process of creating a report about a country."

— Kristin C.

"Very easy format. The students knew what they needed to look for and where to write everything. It made researching for the first time easy!" — Sally M.
